

# STATUS OF THE PROSPECTUS

This document has been prepared on behalf of the South West Protected Landscapes Forum by a Task Group of members and regional partners. It represents a significant step forward in thinking about the future of the Protected Landscapes and in developing their contribution to rural development and quality of life in the South West.

The prospectus sets out challenges and opportunities for future management of Protected Landscapes and includes a plan of action that has the support of South West Protected Landscapes Forum members and regional partners. All those involved with the regions' Protected Landscapes are encouraged to adopt and implement its objectives.

The prospectus contributes to the implementation of the Regional Environmental Strategy.
